

ATTENTION: State Associations

ANCOR Services Corporation takes the Guessing out of Getting Good Deals

Your resources are limited and valuable, which is why we want to help you maximize them!

"ANCOR Services Corp's Shared Resources Purchasing Network has not only saved us money but, because our staff can also participate, it allows us to extend this discount opportunity to our employees."
Charlie Hooker, Keystone Human Services

ANCOR Services Corp. (ASC) has developed the Shared Resources Purchasing Network (SRPN) to help members like you recover their besieged budgets from the strain of reduced reimbursements. By applying ANCOR's strength in numbers, SRPN leverages its members' collective buying power to stimulate

dramatic discounts on everything from appliances to latex gloves. We call it ANCOR's year-round stimulus package. You'll call it an exceptional benefits package!

The Choice is Yours: You can spend your declining dollars the usual way – Or you can join SRPN and rededicate them to your wish list.

Tap into Big Savings and Big Benefits: State associations that are ANCOR members can offer SRPN as a benefit of membership for their members even if agencies don't individually belong to ANCOR. Associations need only register with SRPN and provide ANCOR with its agency member roster for verification.

For Members of ANCOR State Associations: Once your state association has registered with SRPN, through ANCOR's Development Director, go to the ASC website www.ancorservicescorp.com and get started! Click on "View all partners" in the right hand column and you will be taken to an overview of the SRPN as well as access to the SRPN inquiry Request Form. On the request form in the space for organization, put in your state association's name followed by your agency name – and your full contact information. That's all there is to it to begin savings.

A few Fringe Benefits—and something you won't find with other buying groups: The savings generated through SRPN are also available with some of the companies as a perk to all agency staff, persons served and their families. And best of all ... every purchasing partner strongly encourages employment opportunities for people with disabilities.

Questions? Please contact Marsha Patrick, ANCOR's Development Director, at mpatrick@ancor.org.
